ROHIT GUPTA

rohitgupta08247@gmail.com | 9337062650 | Bhubaneswar, Odisha, India | linkedin.com/in/rohit-gupta-1b27b621a

PROFESSIONAL SUMMARY

SDET with **3+ years of experience** in progressive **QA** engineering at Cognizant. Experienced in building automation frameworks with **Java**, **Selenium**, and **REST Assured**, and integrating them into **CI/CD** pipelines using **GitHub Actions** and **Jenkins**. Skilled at leading **QA** delivery teams, driving tool adoption across squads, and delivering zero-defect releases in fast-paced **Agile** environments.

TECHNICAL SKILLS

Automation & Testing: Selenium WebDriver, TestNG, REST Assured, Xray
Languages & Technologies: Java, JavaScript, SQL, HTML5, CSS
CI/CD & Tools: GitHub Actions, Jenkins, Git, GitHub, Maven, Postman, Jira, VS Code, Eclipse
Methodologies & Core: Agile/Scrum, Test Framework Architecture, API Testing, CI/CD Pipeline Automation

PROFESSIONAL EXPERIENCE

Test Automation Lead | Cognizant *12/2025 – Present*

- Directed two **QA** teams on a new enterprise insurance project, managing sprint task allocations over 12 months and delivering the release with **zero defect** leakage to production.
- Built end-to-end automation frameworks from scratch for two enterprise applications, cutting manual policy creation time by 20 minutes per policy and reducing overall processing time by **80%**.
- Architected scalable **Selenium** and **Java** (**POM**) automation frameworks to support cross-application test coverage.
- Introduced **GitHub Copilot**-powered code reviews via a custom **copilot-instructions.md** configuration, cutting manual review time by **90%** across 250+ pull requests to maintain code quality.
- Integrated test suites into **GitHub Actions CI/CD** pipelines, running daily health checks across 6 critical business workflows.
- Tracked and consolidated automation metrics across project squads, presenting weekly progress reports and discussing blockers directly with client stakeholders.
- Facilitated team-wide adoption of the client's automation tool across 10 project squads, ensuring consistent usage to accelerate **QA** and automation processes.

Quality Engineer | Cognizant *12/2024 – 12/2025*

- Engineered hybrid automation test suites with **Java**, **Selenium WebDriver**, and **TestNG**, cutting **regression** cycle time by **65%**.
- Automated backend RESTful **API** validation using **REST Assured** and **Postman**, achieving **100%** contract compliance.
- Mentored a three-member **offshore team**, improving their sprint task completion rate by **50%**.
- Spearheaded framework migration from a legacy setup to the client's new hybrid framework across 10+ test suites with zero **regression**.
- Increased **regression** automation coverage from **10%** to **60%** — a 6x improvement — significantly improving testing efficiency.

QA Analyst | Cognizant *12/2023 – 12/2024*

- Streamlined functional and **regression** test suites using **Java** and **Selenium WebDriver**, accelerating test cycle velocity by **40%**.
- Designed test scenarios, executed test suites, and generated comprehensive defect reports and **QA** metrics using **Jira** and **Xray**.
- Validated **API** responses using **Postman** and performed backend database testing with complex **SQL** queries to verify data integrity.

Intern | Cognizant *09/2023 – 11/2023*

- Executed 50+ manual functional test cases in **Jira** to validate core application workflows, establishing a solid foundation in **QA** processes.
- Implemented automation test scripts using **Selenium** with **TestNG** and **Cucumber** frameworks, applying **Java** and **MySQL** to support early automated **regression** coverage.

PROJECTS

Enterprise Insurance Application: Delivered end-to-end policy and case creation automation covering the complete workflow across two applications, saving 160 hours annually (80 hours per application).

Enterprise REST API Automation: Developed a scalable **REST Assured** framework to validate backend RESTful services and ensure strict contract compliance.

CERTIFICATIONS

Automation: Selenium with **Java**, **Cucumber**, and Frameworks.
Programming & Tech: Java for Beginners, Python Bootcamp, Web Development.

EDUCATION

B.Tech in Civil Engineering, Veer Surendra Sai University of Technology (VSSUT), Odisha — CGPA: 8.37

LANGUAGES

English, Hindi, Odia (Full Professional Proficiency)
